CAREER OBJECTIVE

A Data Science graduate with a strong foundation in statistics, programming, and data handling, built through academic work and hands-on projects. Passionate about transforming raw data into meaningful insights that support informed decision-making. Known for a curious mindset and quick adaptability to new tools and technologies. Seeking an opportunity to apply analytical skills in a real-world environment, contribute effectively to an organization, and grow as a data professional.

WORK EXPERIENCE

Rubiscape

May 2025 – July 2025

Project Intern · Remote · Pune

- Trained in using the Rubiscape analytics platform for end-to-end data processing and visualization using RubiPython, RubiSQL, and RubiR.
- Collected data from multiple sources, performed data cleaning and preprocessing to ensure accuracy and consistency.
- Developed interactive dashboards using both historical and real-time data to generate actionable insights for decision-making.
- Gained hands-on experience in data handling, visualization, and data-driven decision-making within a practical business environment.

PROJECTS

QR Code Security System with Phishing Detection

2024–2025

Python, Machine Learning, URL Analysis

- Developed a secure QR code-based system to address security risks such as phishing and unauthorized access.
- Implemented a one-time QR validation mechanism to prevent multiple scans and misuse of confidential codes.
- Integrated a phishing detection feature using machine learning to analyze and flag potentially malicious URLs before redirection.
- Designed a logging and tracking system to monitor user activity, including scan history and timestamps, with a pre-generation warning system.

AI-Based Resume Screening and Candidate Assessment System

2024–2025

Python, NLP, Scikit-learn, Pandas

- Developed an AI-powered system to automate resume screening and candidate evaluation using NLP techniques.
- Extracted key information such as skills, education, and experience from resumes to build structured candidate profiles.
- Designed a matching algorithm to compare candidate profiles against job requirements and generate compatibility scores.
- Integrated an assessment module to evaluate candidates through tests, improving hiring efficiency and reducing manual effort.

EDUCATION

B.Sc. in Data Science	Jun 2023 – Apr 2026
Thakur College of Science & Commerce · Mumbai, Maharashtra	
Relevant Coursework: Statistics, Data Cleaning & Preprocessing, Data Visualization, Big Data Analysis, Deep Learning, Cloud Computing, Data Security	
H.S.C.	2020 – 2022
M.K. Sanghavi · Mumbai, Maharashtra	
I.G.C.S.E.	2020
Rustomjee Cambridge International School · Mumbai, Maharashtra	

TECHNICAL SKILLS

Languages	Python, R, SQL (Basic/Intermediate)
Libraries	Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn
Visualization	Power BI, Tableau, Excel (Basic/Advanced), Dashboard Creation
Data Science	Data Analysis, Data Cleaning, EDA, Big Data, Deep Learning, Cloud Computing
Platforms	Rubiscape (RubiPython, RubiSQL, RubiR)

CERTIFICATIONS

Data Science Foundation — Rubiscape	May 2025
Data Visualization Foundation — Rubiscape	May 2025
Data Engineering Foundation — Rubiscape	June 2025
Artificial Intelligence — IIT Bombay (Techfest)	December 2025
Personal Finance & Risk Management — IIT Bombay (Techfest)	December 2025
Cricket Analytics — Mad About Sports	April 2024

SOFT SKILLS

Problem Solving & Analytical Thinking · Team Collaboration · Quick Learning · Attention to Detail · Adaptability
